ONATIONAL TRANSGENDER OHEALTH SUMMIT

April 12-14, 2019

OAKLAND MARRIOTT CITY CENTER 1001 BROADWAY, OAKLAND CA 94607

PRE-CONFERENCE SCHEDULES

April 12, 2019

SUMMIT PROGRAM SCHEDULE

April 13-14, 2019

WELCOME!

Welcome to the 2019 UCSF National Transgender Health Summit. We are thrilled that you are joining us to learn from leading clinical, community, research, policy, and academic experts in the field of transgender health. We hope that you will find the program to be rich with cutting-edge research findings, evidence-based educational sessions, and training opportunities across many clinical disciplines.

The program includes four plenary presentations, a dynamic poster session, and films, with sessions organized into four tracks. The track sessions include oral presentations, knowledge and skills-building activities, roundtables, and mini-symposia. The four tracks are:

Clinical Track: Break-out sessions in the clinical track focus on topics including primary care, hormone therapy, surgery, mental health, gynecology, pediatrics and adolescent medicine.

Community Track: The trans and gender-diverse community break-out sessions provide a forum for trans and gender diverse people in health professions and communities to strengthen their skillset and networks for leadership, community mobilization, and professional development.

Research Track: This track includes break-out sessions providing a forum for disseminating cutting-edge, data-driven research and evaluation from diverse health-related disciplines.

Policy Track: This track is a collaborative effort between UCSF's Center of Excellence for Transgender Health and the **Transgender Law Center**. This curated track includes break-out sessions about transgender health policy issues, such as immigration, health disparities and access, data collection, and insurance coverage.

This Summit would not have been possible without the expertise of all of the speakers and presenters, the efforts of our volunteers, and the generous contribution of our supporters. Their generosity allowed us to provide **over 130 scholarships** this year and helped defray numerous other expenses.

We extend our deepest thanks to:

- AIDS Healthcare Foundation
- Centers for Disease Control and Prevention
- Gilead
- TAJA's Coalition
- Transgender Law Center
- California HIV/AIDS Research Program

In addition to the generosity of our supporters, the 2019 Summit reflects the work of many dedicated staff from UCSF's:

- Center of Excellence for Transgender Health (transhealth.ucsf.edu)
- Transgender Care Program (transcare.ucsf.edu)

- Center for AIDS Prevention Studies (caps.ucsf.edu)
- Office of Continuing Education (meded.ucsf.edu/cme)
- Pacific AIDS Education and Training Center (paetc.org)

We hope that the 2019 Summit will provide you many opportunities to network with peers, colleagues, allies, and supporters from across the country and from around the world. Please be sure to join us at the opening reception on Saturday evening for drinks, nibbles, and music.

If you need anything during your stay, please don't hesitate to approach our helpful volunteers, the professional staff from the Marriott Oakland City Center, or any UCSF employee. We are here to ensure that you have a pleasant and rewarding experience at the Summit.

Yours in the effort to advance transgender health,

The 2019 National Transgender Health Planning Committee
